- Dokumentation und Tools

1. Einführung

 Modul "Persons" – Suchvorgang aller Mitarbeiter und wichtige Rollen der Fachhochschule Erfurt

1. Einführung

2.1 ServiceInputSearch - Milena

- Eingabe der Personendaten zur Suche
- Eingabe wird überprüft
- weitergabe der Parameter

ServiceInputSearch

- inFirstName:String
- inLastName:String
- inModul: String
- inFaculty: EnumFaculty
- List<String> PersonInputData:
- + SetListSearchInput(): void
- + SetInputParameter(): bool
- + GetListSearchInput(): void
- checkNameValid():boolean
- convertToString(): boolean

<Enumeration>>

EnumFaculty

Angewandte Sozialwissenschaften Bauingenieurwesen Konservierung & Restaurierung

Architektur und Stadtplanung

Gebäudetechnik und Informatik
Landschaftsarchitektur, Gartenbau und

Wirtschaft-Logistik-Verkehr

2.2 ServiceResultList - Hoang

<<Schnittstelle>> ServiceDisplay

DisplayResult(): void

ServiceSearchResult

- HashMap<Int, List<String>PersonInputData>InputData
- HashMap<Int, List<String>PersonData> PersonDataSet
- HashMap<Int, List<String>PersonData> ResultMap
- + setPersonDataSet(): void
- + setListInputMap(): boolean
- + copyInResultMap(): boolean
- + getPersonData(): void
- + getElementInPersonDataSet(): void
- + checkMapIsEmpty(): boolean
- + compareDataInMaps(): boolean
- + DisplayResult(): void

2.3 ServiceResultHistory - Hoang

FACHHOCHSCHULE ERFURT UNIVERSITY OF APPLIED SCIENCES

Angewandte Informatik

<<Schnittstelle>> ServiceDisplay

DisplayResult(): void

ServiceSearchHistory

- HashMap <Int, String> SearchHistory
- List<String>PersonInputData>
- String SubStringFirstName
- String SubStringLastName
- + setSubStringFirstName(): boolean
- + setSubStringLastName(): boolean
- + setNextContainerInHistoryMap(): boolean
- + setPersonalInformation():booleaname
- + getFirstNameFromList(): void
- + getLastNameFromList(): void
- + getContainerFromHashMap(): void
- + checkMapIsNotEmpty(): boolean
- + deleteFirstInContainerInMap(): boolean
- + deleteEntireMap(): void
- + DisplayResult(): void

2.4 ServiceDelete - Milena

2.5 ServiceCreateNewPerson

FACHHOCHSCHULE ERFURT UNIVERSITY OF APPLIED SCIENCES

2.5 ServiceCreateNewPerson

FACHHOCHSCHULE ERFURT UNIVERSITY OF APPLIED SCIENCES

Angewandte **Informatik**

- FirstName: String
- LastName: String
- Address: String
- Email: String
- Phonenumber: short
- Title: String
- HireDate: String
- Faculty: Enum
- TeachingFlag: Boolean
- Major: String
- ImmatriculationDate: String
- ExmatriculationDate: String
- TutorFlag: Boolean
- ScientificWorkerFlag: Boolean
- Picture: String
- AcademicTitle: String
- JobTitle: String
- Room: String
- + CreateNewPerson(): void
- + setName():boolean
- + setAddress(): boolean + setEmail(): boolean
- + isTeaching(): Boolean
- + setTitle(): boolean
- + setHiringDate(): boolean
- + getPicture(): void
- + setPhonenumber(): boolean
- + getRoom():void
- + getFaculty():void
- + getSubject():void
- + setRoom():void
- + isPhonenumberValid()
- + isEmailaddressValid()
- + isRoomValid()
- + isPictureValid()

2.6 ServiceEditPerson

ServiceEditPerson

- FirstName: String
- LastName: String
- Address: String
- Email: String
- Phonenumber: short
- Title: String
- HireDate: String
- Faculty: Enum
- TeachingFlag: Boolean
- Major: String
- ImmatriculationDate: String
- ExmatriculationDate: String
- TutorFlag: Boolean
- ScientificWorkerFlag: Boolean
- Picture: String
- AcademicTitle: String
- JobTitle: String
- Room: String
- + EditFirstName()
- + EditLastName()
- + EditAddress()
- + EditEmail()
- + EditPhonenumber()
- + EditTitle()
- + EditHireDate()
- + EditFaculty()
- + EditMajor()
- + EditImmatriculationDate()
- + EditExmatriculationDate()
- + EditPicture()
- + EditAcademicTitle()
- + EditJobTitle()
- + EditRoom()
